

TaiichiO & Wolf Projects bases its

## **Environmental Performance** on:

- The establishment of framework guidelines through its Integrated Management Policy.
- Assessment of and compliance with applicable Legal Requirements and those to which the organization subscribes.
- The assessment and monitoring of its Environmental Aspects.
- The establishment and monitoring of Environmental Objectives.
- Sustainability, as a common denominator, in the development of all our activities.
- Strategic development of the business focused on the renewables energies and net zero carbon transition.
- This Performance is evaluated annually by the Management.
